

Flowmint VIP Licensing Kit & Reseller Guide

Official Commercial License — Automatic Delivery of Licenses and Sales Resources. Everything you need to start offering Flowmint App right away, with no technical complications, while keeping **100% of your earnings**.

Welcome to the Partner Network

Congratulations and welcome to our network of commercial partners! This document contains everything you need to start offering Flowmint App immediately. The system is directly integrated with **Hotmart** — when you make a sale, the customer immediately receives their access key without you having to generate codes manually or answer emails.

What you're receiving and how the system works?

Automatic Delivery

Keys are sent instantly via Hotmart integration — zero manual work required.

100% Your Earnings

Set your own prices and keep all profits from every sale.

No Tech Skills Needed

Start selling immediately with pre-built resources and support materials.

Your 3 Essential Deliverables

This Reseller License package includes 3 essential components designed to commercialize the application immediately:

Executable App File & Access Link

For your convenience, the application is delivered in two formats to fit your technical level:

Direct Option (No installations):

App Access Link: <https://flowmint.centraliaportal.com/flowmint.html>

What is it?: It's the direct link to the app that works on any device.

IMPORTANT: Do not confuse it with the sales page (flowmint.centraliaportal.com), which contains our public prices. Only give customers the URL ending in `/flowmint.html` for a clean experience and your own branding.

Local Files Option (Host on your own domain):

The app is built 100% with web technologies (HTML, CSS, JavaScript) – no databases needed. Upload the files folder to your server (Hosting, cPanel) or to free platforms like **Netlify** or **Vercel**. In less than 2 minutes, the app runs under your own domain (e.g., `app.yourbusiness.com`).

VIP Reseller Deliverables (Hub Access Page): flowmint.centraliaportal.com/recursos-vip/index.html

Direct PDF Guide (Neutral Version): flowmint.centraliaportal.com/recursos-vip/downloads/user-guide.pdf

2

Support Material, Onboarding & Sales

You don't have to write manuals or build apps from scratch. We provide all the support material. The Reseller has direct access to download the Operating Guide in neutral PDF format from the VIP platform.

Tutorials page: flowmint.centraliaportal.com/recursos-vip/tutoriales/

3

Auto-Responder & Lead Capture (Brevo)

The app includes a "Feedback and Suggestions" module linked to Brevo. Every time a user sends comments or requests help, their data is automatically processed by the auto-responder system. This allows you to collect user emails (Leads), measure system usage, and receive real-time feedback to provide better customer service – without manual effort.

Value Proposition & License Rules

New Sales Arguments for Your Customers

 **Brand Protection & Value:** The limit of *2 devices per key* protects your business against unauthorized sharing and increases the perceived value of the product.

 **Interactive Demo Mode That Sells for You:** Send prospects the Demo version. They will test the tool and see a direct button to buy or enter their key once they are ready.

Included Rights (What You CAN Do)

- Commercialize FlowMint under your own brand and set your own prices
- Package the app as a value-added bonus in your services or consulting
- Host the app on your own domains and servers
- Deliver the White Label Operations Guide to your end customers

Restrictions (What You CANNOT Do)

- Resell or distribute this Master License to other resellers
- Publish the source code in public repositories
- Sell the official admin landing page with your own license payment buttons as a master

The Secret Updates & Announcements Panel

This is key to showing the control that Reseller has. Your Direct Communication Channel:

1 Access the Admin Panel

Click **3 times** on the **Flowmint App** logo and enter your admin PIN. This one is send it to your email which you buy the App. Once you get in, you can change it.

2 Publish Announcements

Use it to publish announcements, offers from your other services, launches, or important notices that your customers will see within your own app.

3 Exclusive Advantage

This admin access does **not** consume device slots and does **not** require commercial keys.

Your Immediate Action Plan

1 Deploy Your App or Use the Neutral URL

Access the VIP Resources Hub (<https://flowmint.centraliaportal.com/recursos-vip/tutoriales/>) to download the flowmint.html file or use the clean URL directly for your clients.

2 Configure Your Capturing Channels

Activate your recommended integrations (Brevo for autoresponders and Tidio for live support) to start building your user database from day one.

3 Launch Your Offer & Start Monetizing

Upload the app to your Hotmart checkout or package it as a value coupon in your services. Deliver each client the **Neutral PDF Guide** and the link to the **Tutorials Center**. Share the link to your Sales Page on your social media and in your campaigns.

End-Customer Delivery Guide (Step-by-Step)

Automated and frictionless process:

Purchase

The customer pays on your platform or Hotmart checkout.

Delivery

The customer receives an automated email with the link and their personal key.

Activation

The customer activates the key on their computer or phone (up to 2 devices).

Limit Reached

If a customer tries to use it on a third device, the screen will clearly explain that the limit has been reached and will offer the option to purchase an extra key.

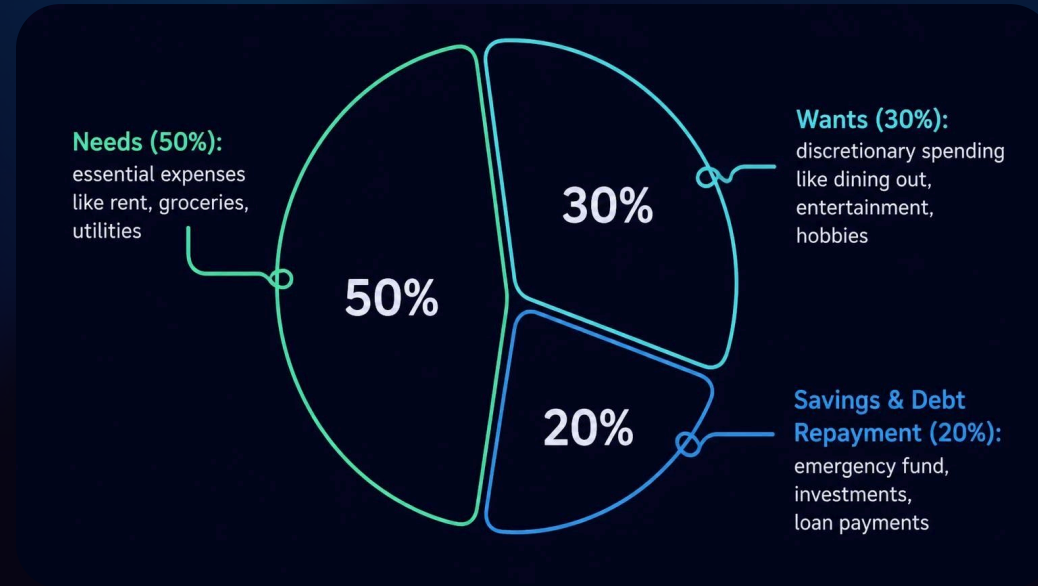

Feedback & Onboarding

Use the integrated feedback button to collect comments and improve the customer experience.

The 50/30/20 Budget Rule

Flowmint App helps your end-customers apply the **50/30/20 budget rule** — a proven personal finance framework for managing income effectively.

It's a simple, powerful system that makes financial planning accessible to everyone — and a strong selling point when presenting Flowmint to new customers.

This method divides net income into three categories: **50% for Needs** (essential expenses like rent, groceries, utilities), **30% for Wants** (discretionary spending like entertainment, dining out), and **20% for Savings & Debt Repayment** (loan payments, emergency fund, investments).

50% — Needs

Essential expenses: rent, groceries, utilities, transportation

30% — Wants

Discretionary spending: dining out, entertainment, hobbies

20% — Savings

Emergency fund, investments, and debt repayment

Phase 2 Roadmap — What's Coming

Voice Assistant

Record expenses with your voice — Flowmint fills out the form for you.

PDF Reports

Professional export with your own branding for partners or accountants.

Currency API

Updated exchange rates automatically with an internet connection.

Bank Sync

Automated connection with bank accounts.

Recommended Tools

Recommended Tools for Your Business

Gamma App (PDF Editor)

To customize your PDF manuals with your logo if you wish. Gamma App is 100% optional (only if you wish to edit the manual design).

👉 [Register for Gamma App](#)
